

# PRODUCT DATA SHEET

## ULTRAVIOLET CABLE TIES

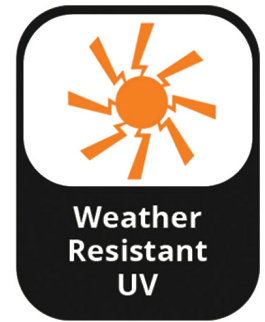

### DESCRIPTION

It provides a strong and durable cable jul method, it is used in a wide range of indoor and outdoor application areas. Standard cable ties are available in various lengths and colors with a tensile strength of 18 to 250 pounds.

-It provides consistent performance and reliability.

### FEATURES

- Material : Pure Nylon 6.6 Standard UL
- Operating Temperature : - 40°C --- +85 °C
- Color : Black

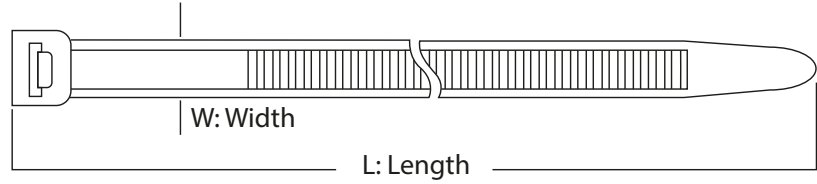

### MARKINGS

- It complies with RoHS standards.
- It complies with ISO 9001 standards.
- It complies with UL standards.
- It complies with CE standards.
