

# PRODUCT DATA SHEET

## THREE PHASE BUSBAR

### DESCRIPTION

It is an 18-pole 3-phase pin type copper busbar with plastic insulation on the body. It is designed for 3-phase connection. The pin style busbar reduces wiring effort, prevents hot spots and provides a safer installation as the loop can be installed faster than building wire.

### FEATURES

Busbar systems provide safe and economical connection.  
It integrates easily.

### MARKINGS

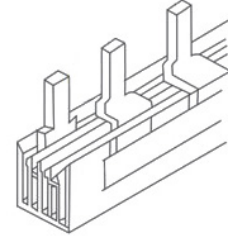

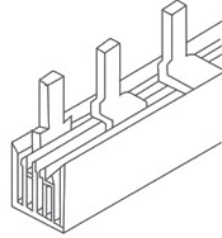

- It complies with RoHS standards.
- It complies with CE standards.
- It complies with ISO 9001 standards.
- Domestic Production.
